Operations Review - March 2026

Date: 2026-03-31
Prepared for: Monthly operations meeting

Summary

March 2026 had 5 production changes and 3 incidents. Two incidents are linked to changes made during the month; one was caused by an external provider.

Changes

- CHG-0311 (2026-03-03) ledger-service connection pool reduced.
- CHG-0314 (2026-03-05) fraud-scorer model v4.
- CHG-0320 (2026-03-10) notification-service TLS certificate rotation. No customer impact.
- CHG-0327 (2026-03-18) settlement-batch schedule change.
- CHG-0331 (2026-03-24) ledger-service connection pool restored.

Incidents

- INC-2041 (2026-03-05) card authorization failures. Linked to CHG-0314 and CHG-0311.
- INC-2047 (2026-03-19) delayed merchant payouts. Linked to CHG-0327.
- INC-2052 (2026-03-26) notification email delays. External: provider outage, not linked to any change.

Follow-up

Action items from INC-2041 and INC-2047 are tracked in the incident reports. The change board will review how risk ratings are assigned to capacity changes.
